

Informal STREET PARTY Information Sessions

Street Parties will be taking place across the country this summer.

If you've thought about holding a street party but don't know where to start, here is the chance for an informal chat with some people who have done it before. Discussions will include consulting your neighbours, filling in forms and how to physically close a road. Why not come with a neighbour?

**Harpenden, Tue 5th March 2019
10.30 - 11.30am**

Harpenden Arms, 188 High Street, Harpenden, AL5 2TR

**St Albans, Wed 6th March 2019
8.00 - 9.00pm**

Beech House, 81 St Peter's Street, St Albans, AL1 3EG

We will also discuss how to build on the community cohesion a street party brings, including the concept of Playing Out, where the residents of a street decide as a community to apply to close their own road to through traffic more regularly to allow children to play out in the street. A Playing Out trial starts soon in Harpenden and St Albans and you will also be able to register your interest in taking part in Playing Out when it is rolled out.
